

WebMtl

Open Source Video Editor Project

ihasq.com

github.com/ihasq

Abstract

- The Video Editor On The Web
- Free Open Source ~~Bunch of JavaScript~~ Software
- WebGPU / WebAssembly powered Progressive-Web-App
- Modernized AviUtl: Util for Avi to util for WebM
- Non-packaged project file: readable data structure
- GitHub-powered group working
- SVG-driven lightweight editor interface
- NO VDOM: 99% SVG, expect in HTMLInputElement
- Multi-window architecture (hardest point)
- Works with Web Extension (e.g. socket connection for broadcasting?)
- HLSL, AUP, EXO, PMX, VRM bridge support: Windows To Web
- Specializing in online media resources >> no SharedArrayBuffer :(

Technology Stack
